Great insights into Sir Edward's character in *Witchfinder: Lost and Gone Forever* #2—stiff upper lips are fine for dime novels, but his childhood story reminds us that this thoughtful hero is not a survivor of trauma; he's a survivor of kindness. Though the trauma part (and his realization of the stories behind the dime novels) gives him a certainty about the "truth" that can make him slip up fatally, which is where the horse sense of Kaler might come in handy. And is there a better-drawn and better-colored comic yet this year? Severin is one of those artists I "read" as intently as the text, so rich and real are his textures and expressions and attitudes, and the immersive extrareality of Stewart's colors is yet another frontier for him (fittingly for the locale)—like the palette of nineteenth-century lithography, when they might not have had our million-color "capacity" but had extreme and artful care. A great vision of early culture crossing by master storytellers who make us feel eternally at home.

Dave loves coloring westerns, but not as much as we love seeing Sev draw them. *Witchfinder* wraps up next month. Don't miss a second of it.

Dear sirs,

I am a great fan of the heavy line art of *Hellboy* and *B.P.R.D.*, but my first and foremost interest is in the short story. Through the three volumes of *Odd Jobs* I have found a comfortable bit of weird, macabre, and well-written stories that make me smile a little every time I see anything that relates in any way to the stories contained therein. I enjoy the more lengthy accounts as well, but this gives way to my concern: do you ever fear for the continuity of the universe, with so many related media and vast amounts of authorship variation? Or is there some deeper meaning to the little differences that speaks to the constant flux of how "truth" can be just as dynamic and varied as the pattern of tears in the rain?

Travis

We like monsters.

For the continuity stuff, in which we do not include Odd Jobs or the cartoons or movies, Mignola is heavily involved in every script, so we think that maintains the integrity of the voice and vision.

I loved those short backup stories told by a mysterious monk in *The Wild Hunt*, "How Koshchei Became Deathless" and "Baba Yaga's Feast." Any chance we'll be getting more of these myths from that mysterious monk? Perhaps in *Dark Horse Presents*?

Mark

We do intend to do more like that; we're just not sure when.

I have to say that I bloody love *Hellboy* and the *B.P.R.D.* books.

I love the stories and the art, and will happily spend hours trying to work out how things were done in the books, but that's not the main reason I love the *Hellboy* and *B.P.R.D.* books.

The main reason is *they make buying presents for people so easy!* Seriously! Everyone loves them, even snobby jerks! They'll use one of the *Hellboy Library* volumes as a coffee-table book!

Kieron

I just wanted to say thank you for *B.P.R.D.* I enjoy the mystery, horror, comedy, and folklore that come crashing together in every story. I absolutely love the way that all mythologies are valid in the *B.P.R.D.* family of books. From the beginning of time until now, every belief system gets a chance, right before the Right Hand of Doom meets their faces!

Keep up the great work! It inspires me every day!

Alex Aronowicz

I hope everyone enjoyed this terrific Corben comic—Mike gets a great deal of pleasure coming up with cool stuff for Corben to draw, and this one blew us away when the pages came in. Corben was born to draw Roger. I imagine you were all happy to see our homunculus again, if only for a flashback. Over in *B.P.R.D.*: The Dead Remembered this month, we get a flashback to the day Liz Sherman killed her family, a great untold story of the *B.P.R.D.* Then next month—The Fury! Mignola and Fegredo conclude the *Hellboy* epic we started six years ago, and the wait is worth it. Also next month—the Baltimore hardcover, by Mignola, Golden, and Stenbeck, a big, beautiful book that you're all gonna want on your bookshelf.
